PROJECTS

Group Alarm Android App

Jan 2019 - Feb 2019

<https://github.com/GDGVIT/Group-Alarm-App>

An Android app in which you can set Group Alarms . Turn them On in one tap and vice-versa plus the basic features of Alarm . A lot has been done to make the UI look great. This is the app which will be live next month. Currently in Testing Phase.

VitWifi - OneTapConnect

Jan 2019 - Jan 2019

<https://github.com/VarunSai23/VitWifi-OneTapConnect>

This is an Android App which will help my University Students to connect to the Official Wifi of Vellore Institute of Technology (My University) .

In this app, I am using Web Scrapping to connect to the Wifi through Jsoup .Its a very useful app.

NotesKeeper-App

Feb 2019 - Present

<https://github.com/VarunSai23/NotesKeeper-App>

An android app to Save Text Notes, Voice Notes,etc. with lot of Text Customization Features. This app aims to use most of AAC libraries in MVVM architecture.You can connect your Google Account with this App which will Save all your notes on Firebase.

POPcorn-Personal-Entertainment-Manager
